* A Metropolitan Statistical Area (MSA) is defined as one or more counties with a large population center and adjacent counties that have a high degree of economic interaction with the population center(s). We use the official 2010 MSAs delineated by the U.S. Office of Management and Budget, which will be the nationwide standard through 2020.

Produced by Florida REALTORS® with data provided by Florida’s multiple listing services. Statistics for each month compiled from MLS feeds on the 15th day of the following month. Data released on Wednesday, July 22, 2015. Next data release is Thursday, August 20, 2015.
